

# HAND HELD SOCKET FUSION KIT

## TECHNICAL SPECIFICATION:

**Size range:** 20mm - 63mm (1/2" - 2")

**Piping & Materials:** [See Welding Selection Chart](#)

**Required Power:** 120V/ 1Ph/ 15Amp

**Shipping dimensions:** 30" x 12" x 12"

**Shipping Weight:** 35 lbs.

## FEATURES:

- Heaters offer microprocessor control to precisely set and monitor heater temperature in all field conditions
- Heaters are fully field serviceable, including the electronics
- 20-foot power cord to minimize electrical connections
- Two heater stands included in all heater kits, providing three mounting options: toolbox, bench, or freestanding
- Socket adapters have a durable Teflon coating with pipe diameter size and part number clearly marked
- Durable custom toolbox organizes, stores and protects individual tools
- Socket adapters available in DVS Type-A, DVS Type-B, and IPS

## ABOUT THE HAND HELD SOCKET WELDER:

Socket fusion kits are ideal for installing fittings for pipe diameters from 20mm to 63mm. These tools are designed specifically to socket fuse polypropylene (PP), polyethylene (PE), and polyvinylidene (PVDF) pipe and fittings. The use of a hand socket tool is only recommended for 20mm-32mm, larger sizes require a SmartFab™ bench socket or the Spider™ tool for the force required.
